The New Haven Moms Partnership

Ensuring the Emotional Health of Our City’s Families
Who We Are
The New Haven MOMS Partnership is a coalition led by mothers, community-based providers, local and state government, national partners and academic institutions committed to the vision and mission of maternal and child wellbeing.

Mission
The mission of the New Haven MOMS Partnership is to transform service delivery systems for mothers and children through community and neighborhood-based resources dedicated to wellness; thereby strengthening generations of families to flourish and succeed.

Vision
The New Haven MOMS Partnership imagines a world where every mother receives optimal mental health care, where her basic needs are met and where the community is responsive to her needs.

Clifford Beers Clinic Community Breakfast: Educating New Haven Policy Makers on the Importance of Family Mental Health

Maternal Mental Health

- Women are at the highest risk for mental illness during the childbearing years.
- Women are twice as likely as men to suffer from depression and to develop PTSD after exposure to a trauma.
- Women are less likely than men to seek specialty mental health and substance abuse treatment.
- Low-income, minority women living in urban areas are found to have the highest rates of mental illness.
Educational Events and Outreach

Mothers tell us their own stories
We partner with the New Haven Housing Authority…
…And go to where MOMs live

Valley Townhouses

Farnam Courts
Our Team of MOMS, Partners and Allies
M-POWER Groups

Workshops where mothers gather to share, learn and discuss topics of importance to them as mothers.
